## SAWMILL SYSTEMS & COMPONENTS

Used around the world, Wood-Mizer's industrial product line can produce at surprising levels at a fraction of the capital and operating costs of other systems. Wood-Mizer systems are some of the most profitable options available.

- SAWMILLS
- EDGERS/OPTIMIZING EDGERS
- RESAWS/RIPSAWS
- MATERIAL HANDLING
- MOULDERS/PLANERS
- PALLET DISMANTLERS/RECYCLING SYSTEMS

## KILNS AND PALLET HEAT TREATING

Since 1987, Nova dry kilns and pallet heat treating systems are extremely efficient. Offering standard kilns from 5,500 to 120,000 board feet, Nova makes smaller kilns down to 550 board feet for specialty woodworkers.

- WOOD OR GAS FIRED
- FRONT OR END LOADING
- MANY OPTIONS AVAILABLE

## INDUSTRIAL WOODWORKING MACHINERY

Since the 1980's, Northtech has been a staple in factories all across America. Northtech offers a wide range of high quality, industrial grade woodworking machinery for businesses of all sizes.

- BORING
- DUST COLLECTION
- PLANING
- PROFILING
- GLUING & ASSEMBLING
- HANDLING & PACKAGING
- SANDING
- SAWING
- VENEER PROCESSING

## GRINDERS

Cresswood designs and manufactures world-class low RPM single shaft high-torque grinders. Built for the paper, plastic, pallet and wood industries, these grinders deliver superior performance, longevity, and unparalleled operational efficiency. Cresswood also manufactures conveyors and magnetic separators.

- HOPPER FEED 30" - 70" ROTORS
- HORIZONTAL FEED 12" - 70" ROTORS

## STRINGER INDUSTRIES

Stringer equipment is designed and manufactured for low maintenance and rugged durability. Six or eight knife stationary chippers are available from 48" to 80" with several options. Stringer also manufactures wood and bark hogs and rosserhead debarker heads.

- DESIGNED TO USE ENTIRE KNIFE SURFACE
- ONE PERSON KNIFE CHANGES
- COMPATIBLE WITH DISPOSABLE KNIFE SYSTEMS
- 48" 60" 70" 80" CHIPPERS
- HOG SIZES FROM 12" TO 54"

## VACUUM GRIPPERS

Joulin, the inventor of the foam vacuum gripper, manufactures innovative handling systems for the wood industry and others. From simple manual lifts to move heavy slabs and lumber to automatic stacking, destacking, and sorting, Joulin systems reduce or eliminate labor.

## THERMAL MODIFICATION UNITS

Using a combined system of high temperature and vacuum (but no chemicals or additives) the Thermo Vacuum System (TVS) thermally modifies the molecular structure of the wood being treated.

- INCREASES DURABILITY
- INCREASES WEATHER RESISTANCE
- IMPROVES APPEARANCE
- IMPROVED DIMENSIONAL STABILITY
- NO ODER
- ECO-FRIENDLY - NO EMISSIONS

## HIGH-QUALITY PNEUMATIC PALLET NAILING TABLES

Manufactured and widely used in Europe, Pneumatico tables deliver great value for the money. Reliable and durable, they provide a high level of ergonomic comfort and efficiency while enabling streamlined production of a wide range of pallet types and sizes.

**HEICOR CAN ALSO PROVIDE TRIM SAWS, UNSCRABLERS, STACKERS, TALLY SYSTEMS, AND AUTOMATED MATERIAL HANDLING COMPONENTS OR SYSTEMS.**
